

## ACTIVITY 1: SPACE-READY FOOD

### Directions:

As you see each way food can be prepared, write down some foods you enjoy that could be eaten this way (keeping in mind the concerns of space travel).

<b>Preparation Method</b>	<b>Foods I like that can be prepared this way</b>
<b>Intermediate Moisture Foods</b>	
<b>Rehydratable (Or Freeze-dried) Foods</b>	
<b>Natural Form Foods</b>	
<b>Thermostabilized Foods</b>	

Are there any foods you enjoy that you don't think could be eaten in space? Why?

## ACTIVITY 2: SPACE FOOD MATCHING

Directions: Draw lines to match each space food item to what that food item looks like when it is normally eaten on Earth.
